

AIDAN BARENDs

Software Engineering Student | Aspiring AI Engineer

Langebaan, South Africa | +27 71 680 8399 | aidanbarends95@gmail.com | github.com/aidan-g-barends | linkedin.com/in/aidan-barends

SUMMARY

Software Engineering student (Application Development) at CPUT with hands-on experience building full stack web applications, Java desktop systems, and client websites. Comfortable across the stack — HTML/CSS/JavaScript, React, Java, PHP/Laravel, and SQL databases, and currently deepening skills in Next.js, TypeScript, and applied AI. Combines that with a networking and hardware background from client-facing IT support work, and a consistent habit of self-directed upskilling outside the classroom.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Java, Python, PHP, SQL, HTML, CSS
- **Frameworks & Libraries:** React, Next.js, Node.js, Express, Laravel, Bootstrap, Tailwind CSS
- **Databases:** MySQL, PostgreSQL
- **Networking & Hardware:** Router configuration, Wi-Fi installation & troubleshooting, network diagnostics (Fing), PC builds, hardware repair
- **Tools:** Git, GitHub, VS Code, IntelliJ, Cursor, Figma, Postman

PROJECTS

Task Flow Pro — Full Stack Task Management App — [GitHub](#)

- Built as part of a university group project using Laravel, with a structured architecture including models, services, policies, and notifications.
- Contributed to backend logic and data handling; collaborated using Git for version control across a multi-developer team.

Die Strandloper — Restaurant Website — [GitHub](#)

- Designed and built a multi-page website (Home, About, Menu, Gallery, Contact) for a real local restaurant using HTML, Tailwind CSS, and JavaScript.
- Integrated a live contact form using Web3Forms so customer messages are delivered directly by email, without a custom backend.

EXPERIENCE

IT Field Technician — *CraythorneIT*

Aug 2025 – Jan 2026, Jul 2026 – Present

- Perform Wi-Fi assessments, installations, and configurations for residential and business clients.
- Troubleshoot network connectivity issues and diagnose devices on-site using Fing.
- Configure routers and maintain client networks, responding to and resolving outages.
- Carry out PC builds, hardware repairs, and system upgrades for clients.

Other Experience: Waiter (Cape Town Fish Market), Barman (Die Strandloper), Classroom & Music Assistant (Longacres Private School), Background Actor (39 Steps Agency), Lifeguard (NSRI) — 2022–2025. Roles spanning hospitality, education, and emergency response, building customer service, teamwork, and reliability under pressure.

EDUCATION

- **Diploma in ICT: Application Development** — Cape Peninsula University of Technology (CPUT), 2024 – Present
- **National Senior Certificate (NSC)** — Hopefield High School, 2018 – 2022

CERTIFICATIONS

- The Complete Web Development Bootcamp — Angela Yu (Udemy)
- 4IR Digital Skills Training Programme
